

Immunisation Catch-Up Template

**For children currently aged from 12 months up to 2 years (<2 years)
with NO documented history of vaccination**

Important information *This catch-up template covers funded vaccines only.*

- Influenza vaccine is funded for all children from 6 months up to 5 years of age and for **all indigenous children** 6 months to 15 yrs and onwards. The first year a child under 9 years receives influenza vaccine, 2 doses are given at least one month apart. Thereafter 1 dose annually.
- Sources for checking vaccination records: AIR records; VIVAS records; Personal Health Record Book; patient records; previous service provider – please ensure you access all available information **prior to vaccinating the patient**.

Refer to the electronic version of the Australian Immunisation Handbook (AIH) for the 'Minimum acceptable dose Intervals for children <10 years'.

Note: If these vaccines are started at different times ensure the minimum spacing between vaccines containing the same antigen/s is adhered to.

Due now:	Infanrix Hexa [DTP-hepB-IPV-Hib vaccine]	Dose 1
	Prevenar 13 [Pneumococcal vaccine - 13vPCV]	Dose 1
	M-M-R II or Priorix [Measles/Mumps/Rubella vaccine]	Dose 1
	Nimenrix [Meningococcal ACWY]	Dose 1

Then, one month later give: [if child is 18 months or older & has had 1 MMR, also give MMRV now]	Infanrix Hexa [DTP-hepB-IPV-Hib vaccine]	Dose 2
	Priorix Tetra or ProQuad vaccine [if ≥ 18 months of age] [Measles/Mumps/Rubella/Varicella vaccine]	Dose 2

Then, three months later give: [if child is 18 months or older & has had 1 MMR, also give MMRV now]	Infanrix Hexa [DTP-hepB-IPV-Hib vaccine] <i>[give at least 3 months after the last dose of Infanrix Hexa]</i>	Dose 3
	Priorix Tetra or ProQuad vaccine [if ≥ 18 months of age & <u>not given previously</u>] [Measles/Mumps/Rubella/Varicella vaccine]	Dose 2

Due at 18 months of age:	Infanrix or Tripacel [DTPa vaccine] <i>[give at least 6 months spacing after dose 3 of Infanrix Hexa]</i>	Dose 4
	Priorix Tetra or ProQuad [if ≥ 18 months of age & <u>not given previously</u>] [Measles/Mumps/Rubella/Varicella vaccine]	Dose 2

At 4 years of age give:	Infanrix-IPV or Quadracel [DTP-IPV] <i>[give at least 6 months after the last dose of DTP containing vaccine e.g. Infanrix/Tripacel]</i>	Dose 5
--------------------------------	--	--------

Contact the Central Queensland Public Health Unit for advice on the extra vaccines recommended for:

- Aboriginal and Torres Strait Islander children
- Premature [<32 weeks gestation] and/or low birth weight [<2000g] children
- Children identified as being at medical risk for invasive pneumococcal disease [IPD]. Refer to the Pneumococcal section of the Australian Immunisation Handbook 10th ed. [AIH] for a list of conditions associated with an increased risk of IPD.

Refer to the Immunisation Schedule QLD [Children under 10 years] 1 April 2019 for scheduled 'additional' vaccines for Aboriginal and Torres Strait Islander children and children identified as being at medical risk for IPD. Contact Central Queensland Public Health Unit if you require further information.

AIR

To prevent Centrelink payment issues ✓ 'Planned Catch-up section' in child's vaccination record on AIR or complete an Immunisation History Form. Fill out Part A, Part B [only need to ✓ 'on a catch-up program'] and sign Part C then fax to Australian Immunisation Register [AIR] Fax no: 08 9254 4810. Please note, the 'Planned Catch-up' box can only be ticked once.
