Immunisation Catch-Up Template

For children/adolescents currently aged from 16 years up to 20 years [<20 years]

with *NO* documented history of vaccination

Important information   *This catch-up template covers funded vaccines only.*

- Sources for checking vaccination records: AIR records; VIVAS records; Personal Health Record Book; patient records; previous service provider – please ensure you access all available information **prior to vaccinating the patient**.
- Meningococcal ACWY vaccine is funded for Year 10 students and for all adolescents aged 15 to <20 years.

GARDASIL 9

- *Gardasil* 9 [HPV 9 vaccine] is funded for those aged up to 20 years <u>who missed the school immunisation program</u> (SIP). If Gardasil 9 is commenced in adolescents <20 years, completion of the course is funded.
- *This template provides advice for HPV9 spacing for those aged ≤14 years [i.e. < 15 years] and who have missed being vaccinated in the SIP. Adolescents with specific immunocompromising conditions require a 3-dose course given at 0, 2, 6 months. For more detailed information on HPV9 recommendations refer to the SCPHU summary tables 'Specific Recommendations for Gardasil 9 Vaccine' (attached).*
- Access records for Gardasil vaccine/s given in the SIP from the AIR database. AIR is gradually being updated with historical records so it is recommended you check both AIR and VIVAS for vaccination history of adolescents before vaccinating. *Only* service providers can contact public health unit for VIVAS records.
- Sources for checking vaccination records: AIR records; VIVAS records; Personal Health Record Book; patient records or previous service provider **prior to vaccinating the patient**.

Do not use:

- Infanrix-Hexa; Infanrix-IPV, Infanrix/Tripacel and Menitorix vaccines are not registered for people aged >10 years
- Priorix-Tetra and ProQuad (combination MMRV vaccines) are **no longer funded** for >10 years.

Tips

- A 3-dose hepatitis B [paediatric] vaccine course is recommended for people aged <20 years

Refer to the <u>electronic</u> version of the Australian Immunisation Handbook (AIH) for further details

<u>*Note:* If these vaccines are started at different times, ensure the minimum spacing between vaccines containing the same antigen/s is adhered to.</u>
