

Supporting Advance Care Planning in Residential Aged Care Facilities Project WORKSHOPS

Central Queensland, Wide Bay and Sunshine Coast PHN in conjunction with Brisbane South Palliative Care Collaborative is conducting one-day workshops:

Learning outcomes include:

- Understanding the principles and importance of advance care planning (ACP)
- Understanding ACP documents and their legalities
- Recognising and responding to triggers to initiate ACP
- Developing phrases that you can use for ACP conversations
- Learning how best to communicate medical conditions and interventions during end-of-life care
- Learning how to ensure your facility has embedded processes to make ACP routine.

These workshops are targeted to:

- Enrolled nurses (ENs)
- Registered nurses (RNs)
