### Activity Priorities and Description

**Program Key Priority Area \***

Alcohol and Other Drugs

**Other Program Key Priority Area Description****Aim of Activity \***

To maintain continuity of alcohol and other drug (AOD) treatment services for providers previously supported under the SACS supplement, ensuring transitional funding stability.

**Description of Activity \***

This activity supports the continued delivery of AOD services through transitional funding under the Drug and Alcohol Treatment Services Maintenance (DATSM) initiative. The DATSM funding replaces the former SACS supplement payments that ceased on 30 June 2021 and provides time-limited support to eligible AOD service providers, allowing continuity of care.

DATSM funding sustained access to essential AOD treatment services while implementing the MHAODSP Reform. completed in

October 2024. In doing so, the PHN ensured that services previously reliant on SACS funding could maintain operations while longer-term strategies were developed and embedded.

In accordance with funding guidelines, providers remained eligible for DATSM support until 30 June 2024, provided they continued to meet service requirements. Where services were decommissioned before this date, funding was repurposed to align with identified regional AOD priorities and needs assessments.

**Activity Title \***

Drug and alcohol service access for priority populations

**Existing, Modified or New Activity \***

Modified

### Activity Priorities and Description

**Program Key Priority Area \***

Alcohol and Other Drugs

**Other Program Key Priority Area Description****Aim of Activity \***

Increase the availability and access to appropriate drug and alcohol treatment services by improving service capacity, pathways of care and integrated assessment processes

**Description of Activity \***

This activity aims to remove the barriers to treatment experienced by many disengaged and often marginalised community members and increase access to drug and alcohol case management, care coordination, treatment, counselling and outreach to underserved and high need communities.

The DATS activity was implemented as part of CCQ's MHAODSP Reform project, noting substantial recent investments by the State and Commonwealth in key AOD treatment infrastructure in the regions. Services began in the 2024-25 financial year and are intended to leverage these investments, enhancing access and improving outcomes for community members. Importantly, AOD services will evolve from being a standalone stream to being part of a newly integrated stream titled Psychosocial and AOD.

This new service stream not only aligns community-based, recovery-oriented models of care but also bridges the gap between mental health and substance use treatments. It acknowledges the complex interplay among dual diagnoses, such as mental health issues, suicide risk, and AOD misuse. This holistic approach is vital for addressing the interconnected nature of these issues, promoting better health outcomes and supporting long-term recovery.

### Activity Priorities and Description

**Program Key Priority Area \***

Alcohol and Other Drugs

**Other Program Key Priority Area Description****Aim of Activity \***

The activity aims to enhance drug and alcohol treatment services by increasing service availability through regional coordination and targeted commissioning. It focuses on improving treatment effectiveness and efficiency by fostering integration across various sectors and promoting evidence-based, culturally appropriate approaches. This initiative is part of a broader response to the National Ice Taskforce's recommendations and seeks to address specific community needs through targeted planning and improved care coordination

**Description of Activity \***

AOD services are now delivered as part of the Better Connect consortium and form a key element of the integrated service model. This integrated approach aligns community-based, recovery-oriented models of care and bridges the gap between mental health and substance use treatments. It acknowledges the complex interplay among dual diagnoses, including mental health concerns, suicide risk, and AOD misuse. This holistic approach is vital for addressing the interconnected nature of these issues, promoting better health outcomes, and supporting long-term recovery.

The activity involves the implementation of strategies to enhance the availability and effectiveness of drug and alcohol treatment services within CCQ's region. This includes increasing regional coordination and improving integration and efficiency across different sectors involved in treatment. This activity supports the establishment of partnerships and the sharing of innovative practices across the network to improve care coordination and access to treatment, especially for vulnerable populations such as

Aboriginal and Torres Strait Islander people.

### Activity Priorities and Description

**Program Key Priority Area \***

Alcohol and Other Drugs

**Other Program Key Priority Area Description****Aim of Activity \***

This Activity is aimed at enhancing drug and alcohol treatment services specifically for Aboriginal and Torres Strait Islander people, focusing on increasing service availability and effectiveness through regional coordination and sector integration. It targets increasing access to culturally appropriate treatment services that link to broader Indigenous health services, improving care coordination at the local level, and supporting quality improvement in service delivery.

**Description of Activity \***

This activity focuses on enhancing drug and alcohol treatment services specifically for Aboriginal and Torres Strait Islander communities within the CCQ region. It aims to improve service availability and effectiveness through strategic commissioning and increased coordination among various sectors. Key efforts include undertaking a comprehensive needs assessment to identify local health needs and service gaps, planning and commissioning culturally appropriate treatment services, and ensuring integration with broader Indigenous health services. Additionally, the activity emphasizes strengthening linkages with mental health services and promoting education and training for health professionals to deliver culturally sensitive care. This initiative aligns with the Australian Government's response to the National Ice Taskforce Final Report, and aims to provide targeted, effective, and culturally safe treatment options that address the specific needs of Aboriginal and Torres Strait Islander people.
