Activity Priorities and Description

Program Key Priority Area *

Mental Health Priority Area 7: Stepped care approach

Other Program Key Priority Area Description

Aim of Activity *

To provide walk-in, no-cost access to multidisciplinary, person-centred mental health care for adults with moderate to severe mental illness, delivered through community-based Medicare Mental Health Centres.

Description of Activity *

The Medicare Mental Health Centres (MMHCs) provide integrated, free mental health care for people experiencing moderate to severe mental illness, with a focus on timely access, recovery-oriented care, and continuity between services. MMHCs were formerly known as Adult Head to Health Centres and Satellites, though rebranded in FY 24 -25 at the request of the Commonwealth.

The MMHC model for the CCQ region was informed by community co-design with an emphasis on:

- Addressing local service fragmentation
- Reducing pressure on hospitals and emergency departments
- Improving access to coordinated care for people unable to access private or state mental health services

Each centre provides:

- Multidisciplinary mental health care, including clinical and non-clinical staff
- On-site assessment, triage, and treatment
- Care coordination and warm referrals to primary care, social services, and AOD support
- Walk-in and booked appointments, free of charge
- Lived experience workforce involvement and culturally appropriate care pathways

Centres have been established in alignment with the Bilateral Schedule for Mental Health and Suicide Prevention and the PHN/MMHC Implementation Guidelines, with sites located in Rockhampton, Gladstone, Bundaberg and the Sunshine Coast.

Gladstone and Sunshine Coast are both bilaterally funded. Rockhampton and Bundaberg are funded by the Commonwealth.

Yes

Activity Consultation and Collaboration

Consultation

Centre development was informed by regional consultation with people with lived experience, service providers, HHSs, and local government. Ongoing feedback informs model adaptation.

Collaboration

Delivered in partnership with:

- PHN-commissioned lead providers
- Lived experience workforce
- GPs and local health teams
- AOD, housing, and social service providers
- Queensland Health mental health teams

Activity Title *

Universal Aftercare Services

Existing, Modified or New Activity *

Modified

Activity Priorities and Description

Program Key Priority Area *

Mental Health Priority Area 5: Community based suicide prevention activities

Other Program Key Priority Area Description**Aim of Activity ***

Universal Aftercare Services (formerly known as The Way Back Support Service) aim to prevent repeated suicide attempts or recurrent suicidal crisis by providing assertive psychosocial follow up and support to people following a suicide attempt or crisis. The Support for Family, Friends, and Significant Others of People at Risk of Suicide is a new initiative under Universal Aftercare Services. It aims to provide essential support to carers and significant others of individuals experiencing a suicidal crisis or following a suicide attempt.

Description of Activity *

People who have attempted suicide or experienced a suicidal crisis often experience severe distress in the days and weeks following an attempt. Universal Aftercare provides support to people for up to three months after discharge from tertiary care following a suicide attempt or crisis. The service aims to increase social connectedness, improve access to clinical and community support services, and build the capacity of individuals to self-manage and improve mental wellbeing.

The Support for Family, Friends and Significant Others of People at Risk of Suicide is a new program under the umbrella of Universal Aftercare and is designed to support carers of a loved one experiencing a suicidal crisis or following a suicide attempt. It is a peer-led, community-based service consisting of seven key components, ranging from connecting with carers at time of crisis through to information, education and opportunities for peer support. The program's components seek to meet the needs of carers at various stages of their journey - at the time of crisis, in the weeks following a crisis, and ongoing support and connection.

CCQ has partnered with Queensland Health, Hospital and Health Services, and community service providers to deliver the services in Central Queensland, Wide Bay and Sunshine Coast areas of the PHN Region.

Activity Priorities and Description

Program Key Priority Area *

Mental Health Priority Area 2: Child and youth mental health services

Other Program Key Priority Area Description**Aim of Activity ***

The enhancement of headspace services is intended to increase access to coordinated, multi-disciplinary care to cohorts of young people, as well as to improve workforce attraction and retention.

Description of Activity *

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12 -25 experiencing, or at risk, of mental illness.

This Headspace site has reached its funding target of \$1,250,000. This amount includes \$1,043,000 from the PMHC Quarantined headspace (Core) stream and \$207,000 from the NAB headspace Enhancement stream.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model. Funding will be utilised in an adaptable and tailored way to address specific local requirements.

This activity will enable headspace Bundaberg to maintain full staffing levels to ensure nil disruption to clinical services, with a focus on development of its workforce capacity. The funding will go toward recruitment of a GP and an Intervention Worker within

the Centre which will significantly increase the range of services available.

Activity Priorities and Description

Program Key Priority Area *

Mental Health Priority Area 2: Child and youth mental health services

Other Program Key Priority Area Description**Aim of Activity ***

The enhancement of headspace services is intended to increase access to coordinated, multi-disciplinary care to cohorts of young people, as well as to improve workforce attraction and retention.

Description of Activity *

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12 -25 experiencing, or at risk, of mental illness.

This headspace site has reached its funding target of \$1,250,000. This amount includes \$1,043,000 from the PMHC Quarantined headspace (Core) stream and \$207,000 from the NAB headspace Enhancement stream.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model.

The Gladstone headspace service are using this funding to hire additional staff to meet increased demand and to supplement salaries for the existing multi-disciplinary workforce to ensure the Centre continues at a full complement of staff to meet the current young people in the communities need.

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12 -25 experiencing, or at risk, of mental illness.

This headspace site has reached its funding target of \$1,250,000. This amount includes \$836,400 from the PMHC Quarantined headspace (Core) stream and \$413,600 from the NAB headspace Enhancement stream.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model. Funding will be utilised in an adaptable and tailored way to address specific local requirements.

This activity will ensure headspace Hervey Bay maintains full staffing levels to ensure nil disruption to clinical services, with a focus on development of its workforce capacity. The Centre also intends to create additional roles and initiatives over the coming

financial years in line with guidance. Centre will continue to grow their outreach to schools to ease the challenge of transport and conflicting education schedules.

Activity Priorities and Description

Program Key Priority Area *

Mental Health Priority Area 2: Child and youth mental health services

Other Program Key Priority Area Description**Aim of Activity ***

The enhancement of headspace services is intended to increase access to coordinated, multi-disciplinary care to cohorts of young people, as well as to improve workforce attraction and retention.

Description of Activity *

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12 -25 experiencing, or at risk, of mental illness.

This headspace site has reached its funding target of \$1,250,000, and received an additional non-recurrent enhancement, growing the 24/25 contract value to \$1,660,000. This amount includes \$992,604 from the PMHC Quarantined headspace (Core) stream, \$207,000 from the NAB headspace Enhancement stream, and an additional \$460,396 in demand management and enhancement funds. These demand management and enhancement funds were prescribed to headspace Maroochydore by the Commonwealth; allocation was not dictated by CCQ. headspace Maroochydore will return to its funding target of \$1,250,000 in the 25/26 financial year, which will put it on parity with other sites in the region.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model. Funding

will be utilised in an adaptable and tailored way to address specific local requirements.

This activity will enable headspace Maroochydore to maintain full staffing levels to ensure nil disruption to clinical services, with a focus on development of its workforce capacity. The funding will also allow a GP Lead within the Centre to be onboarded which will complement the clinical capacity and enhance the range services available.

The enhancement of headspace services is intended to increase access to coordinated, multi-disciplinary care to cohorts of young people, as well as to improve workforce attraction and retention.

Description of Activity *

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12 -25 experiencing, or at risk, of mental illness.

This headspace site has reached its funding target of \$800,000. This amount includes \$377 ,000 from the PMHC Quarantined headspace (Core) stream and \$423,000 from the NAB headspace Enhancement stream.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model. Funding will be utilised in an adaptable and tailored way to address specific local requirements.

headspace Maryborough is utilising enhancement funding to address the challenges in regional service delivery and increased their clinical capacity through a GP and a Psychologist. providing both in person and telehealth service offerings. The Centre will

continue to grow their outreach to schools to ease the challenge of transport and conflicting education schedules.
