Activity Priorities and Description

Program Key Priority Area *

Other (please provide details)

Other Program Key Priority Area Description

Palliative care

Aim of Activity *

Improve the provision of palliative care and end-of-life services for residents in the PHN region, with a focus on greater choice in quality, appropriate at-home services.

Description of Activity *

This activity aims to improve the integration of care between health providers across the public, private and community sectors, creating greater awareness of the palliative care services provided in our region and increasing awareness and uptake of Advanced Health Care Planning.

Two Full-Time Equivalent (FTE) is allocated across the organisation to establish and maintain the program.

The program continues to engage with local stakeholders in the Community of Practice to maintain contact and momentum and continued support with local Compassionate Communities lead connectors, with the aim of building capacity across communities to care for people approaching the end of life.

This program will aim to improve coordination and communication between services, across organisational boundaries and between public and private sector providers by:

- Mapping primary, secondary and tertiary care services across the region, including levels of service and service areas to improve consumer journeys and care access.
- Continue to develop HealthPathways for all regions to ensure information is accurate and optimal for the range of supports across the region
- Facilitating interagency steering committees
- Developing and implementing strategies to address workforce capacity and skill gaps

There will also be a focus on increasing health sector awareness and uptake of advance care planning across the region, with targeted education and information campaigns for health professionals, other primary care services and community members promoting knowledge, skills and uptake.

Activity Consultation and Collaboration

Consultation

Consultation has been undertaken with:

- The Groundswell Project
- Palliative care Interagency Steering Committee Members
- Primary health care providers
- Hospices
- Community aged care providers
- Palliative care peak bodies
- Palliative care education providers
- Palliative care State and National Providers
- Local Government

Collaboration

Ongoing collaboration occurs with the following:

- The Groundswell Project
- Palliative Care Qld
- The Australian Centre for Grief & Bereavement
- The Office of Advance Care Planning
- Local Hospital and Health Services
- Primary health care providers
- Hospices
- Community aged care providers
- Palliative care peak bodies
- Palliative care education providers
- Palliative care State and National Providers
- Local Government
- Local community across our PHN region

PP&TP-CHAHC - 190204 - Central Highlands Allied Health Clinic

Activity Metadata

Applicable Schedule *

PHN Pilots and Targeted Programs

Activity Prefix *

PP&TP-CHAHC

Activity Number *

190204

Activity Title *

Central Highlands Allied Health Clinic

Existing, Modified or New Activity *

Existing

Activity Priorities and Description

Program Key Priority Area *

Population Health

Other Program Key Priority Area Description**Aim of Activity ***

Administer and manage an arrangement with the Emerald GP Super Clinic (operated by Central Highlands Healthcare Ltd) to deliver the infrastructure required for a Central Highlands Allied Health Clinic at the existing Emerald GP Super Clinic site (Lot 1, Pilot Farm Road, Emerald, Queensland). PHN will consult with Central Highlands Healthcare and work collaboratively to develop and maintain an appropriate project plan, and manage project risks as they arise, to ensure timely delivery of improved access for the community.

Description of Activity *

The Central Highlands Allied Health Clinic will comprise:

- 10 practice rooms;
- a large measurement and assessment room; and
- dedicated training facilities.

PHN has approved a Project Plan in collaboration with Central Highlands Healthcare Ltd. in July 2023 with evidence of an awarded construction contract expected by April 2024.

Construction timelines were subject to the terms of the awarded construction contract by Central Highlands Healthcare Ltd. congruent with the project timelines.

The objective is to improve access to allied health services in Emerald, Queensland. The intended outcomes are to:

- increase access to allied health professionals in and around Emerald, Queensland, by reducing patient travel times, wait times and costs associated with seeking treatment, thereby improving health outcomes; and
- provide opportunities for allied health and medical professionals to practice in a multidisciplinary and collaborative setting, including facilities for training and development of the regional workforce.

Country to Coast Queensland will collaborate with the Department on the evaluation and compliance activities concurrent with the Activity Period including:

- collect reporting/evaluation metrics in relation to progress of the infrastructure build
- monitor compliance and performance of the arrangement, including obtaining comprehensive, independently audited financial reporting and acquittals at the end of each financial year.

Modified

Activity Priorities and Description

Program Key Priority Area *

Population Health

Other Program Key Priority Area Description**Aim of Activity ***

Strengthen the capability of the local primary healthcare system to deliver inclusive, high-quality care for people with intellectual disability.

Description of Activity *

Deliver and promote the Primary Care Enhancement Program (PCEP) for People with Intellectual Disability as part of the National Roadmap for Improving the Health of People with Intellectual Disability. This includes:

- Providing co-designed, evidence-based PCEP training to general practitioners, practice nurses, pharmacists, dentists, allied health professionals and support staff to build capability in inclusive, person-centred care.
- Promoting the use of PCEP resources across primary care settings to embed best practice and support systemic change.
- Engaging people with intellectual disability, their families, carers and health professionals to inform resource development and promote ongoing primary care change initiatives that reflects the lived experience.
- Integrating PCEP into CCQ's ResilientCARE program, leveraging its local workforce, stakeholder relationships, and assessment findings to enhance the reach, effectiveness, and sustainability of PCEP activities.
- Strengthening the capability of the primary care system and people with intellectual disability to protecting their health from the impacts of disasters and climate-related hazards, which are significant in the region.
- Supporting the co-design and delivery of place-based initiatives within the ResilientCARE framework to strengthen the primary

healthcare system and better meet the needs of people with intellectual disability.

- Capturing and sharing learnings from local initiatives to inform practice improvements in other communities and support broader systems change.

Aspects of this activity are being co-designed with people with intellectual disability, their families, and carers. Community consultation has actively shaped the development of training content and resources, ensuring the program reflects lived experience, addresses real-world barriers, and promotes inclusive, person-centred care. This approach ensures the solutions are practical, respectful, and grounded in the voices of those with the most at stake.
