General Practice Infection Control Update

Central Queensland, Wide Bay, Sunshine Coast PHN invites general practice staff to attend a two-part virtual session to provide updates on infection control guidelines aligning with RACGP standards. These sessions are appropriate for clinical and non-clinical staff.

Part 1: Wednesday 23 March 2022

Part 2: Wednesday 30 March 2022

6.00pm – 7.00pm

Presenter:

Margaret Jennings (B.App.Sc.)
Microbiologist and Infection Prevention and Control Consultant/Educator,
Marjen Education Services

Part 1 Topics:

- Standard and Transmission based precautions
- Hand hygiene
- Triage of patients suspected of significant communicable disease
- The use of personal protective equipment (PPE) for a pandemic situation
- Staff immunisation and the immune response

Part 2 Topics:

- Environmental cleaning for practice staff
- Managing blood and body fluid spills and PPE uses
- Clinical waste/sharps management
- Body fluid exposure - immediate response steps

To obtain a statement of attendance, please participate in both sessions.
