Youth mental health in Australia is at a critical turning point.

Escalating rates of mental health disorders, growing demand for services, and persistent systemic challenges in service delivery are placing immense pressure on the health system.

Urgent, coordinated interventions are needed to meet the complex and evolving needs of young people across our region.

LEARNING AREAS

Join more than 2,400 healthcare professionals across the Country to Coast QLD region to:

- ✓ Understand the unique needs of young people.
- ✓ Explore how digital health can change the way services assess, manage and treat youth mental health problems.
- ✓ Identify key strategies and practical steps to enhance young person engagement, assessment and early intervention strategies.
- ✓ Promote culturally responsive and inclusive practices to enable better care for young people from priority populations.
