

Chronic Disease Care Planning

CHCCCS001 Address the needs of people with chronic disease

DATE	Thursday 3rd August 8:45am - 4:30pm
VENUE	Regent Hotel 192 Bolsover Street Rockhampton QLD 4700
COST	Fully funded

Register early as places are limited and will fill quickly. **To apply - [CLICK HERE](#)**

Value for Organisations

Understand the benefit and development of patient care plans for chronic disease, health interventions that identify risk factors and supporting behaviour changes from team care to interventions that deliver improved health outcomes.

Learning Outcomes

- Determine the persons chronic disease management needs, identify risk factors, understand engagement
- Support the person in behaviour change, recognise the need for referrals, recognise the need for follow-up and review
- Apply effective care planning techniques to support the management process.

***Students must complete the Foundations of Chronic Disease online module to book into this program.**

The program is supported by funding from the Australian Government Department of Health under the Chronic Disease Support Project.
