To apply - **CLICK HERE**

The Course in Ear and Hearing Health includes a four hour face-to-face workshop, in-class activities assessed by a qualified assessor and workplace observed practice.

The four hour face-to-face workshop involves anatomy refresher, principles of wax irrigation and practical activities including condition recognition, ear health assessment, monocular otoscopy, digital video otoscopy, and irrigation techniques for wax removal.

Workplace observed practice is a mandatory requirement for this course, workplace practice must be observed by a peer or suitably qualified clinician. For more information please visit the course page.

BEFORE BOOKING A WORKSHOP: Please note, students need to complete the **Foundations of Ear Health Program** before being able to book this workshop. The program is delivered completely online, and consists of blended learning including knowledge information, articles, learning videos and self reflection activities. To learn more please **click here** to view the program page.

You can apply for the foundations program and the workshop by clicking the link above.
