

ENDOMETRIOSIS

Clinician Workshop

Dr Graham Tronc has a busy practice specialising in all aspects of obstetrics and gynaecology. Graham qualified as a Specialist Obstetrician and Gynaecologist in 1990. He has many sub-interests including endometriosis, infertility, adenomyosis, and fibroids. His Book Endometriosis 101: for the significant other is for the huge group of significant others, who, every month and sometimes every day, see their loved one suffering from endometriosis. The workshop will explore endometriosis and related conditions, including diagnosis, treatments, and when to refer. A light supper will be provided.

This workshop will be accredited with the RACGP for CPD points.
