Activity Title \*

Adult Mental Health Centre and Satellite Network (Head to Health)

Existing, Modified or New Activity \*

Modified

#### **Activity Priorities and Description**

Program Key Priority Area \*

Mental Health

**Other Program Key Priority Area Description** 

Aim of Activity \*

To establish Adult Head to Health Satellite Services in Bundaberg, Rockhampton, Gladstone and an Adult Head to Health Centre on the Sunshine Coast to deliver support to adults experiencing psychological distress.

**Description of Activity \*** 

The Centre and Satellite services will be co-designed through meaningful engagement with all relevant stakeholders and the community through multiple channels. This will inform the most locally appropriate approach to offering a seamless entry point for consumers to receive the right level of care at the right time to meet their mental health needs without the need for an appointment.

Integration of care pathways via the Head to Health Phone Service, service navigation and IAR will further enable access to care and advice for people to best meet their needs. The Head to Health Adult Mental Health Centres and Satellites will offer an episode of care model based on short- to medium-term multidisciplinary, collaborative care for people with moderate to high levels of mental health needs.

#### **Activity Priorities and Description**

#### Program Key Priority Area \*

Mental Health Priority Area 5: Community based suicide prevention activities

#### Other Program Key Priority Area Description

#### Aim of Activity \*

Universal Aftercare Services (formerly known as The Way Back Support Service) aim to prevent repeated suicide attempts or recurrent suicidal crisis by providing assertive follow up and support to people following a suicide attempt.

#### Description of Activity \*

People who have attempted suicide or experienced a suicidal crisis often experience severe distress in the days and weeks following an attempt. Universal Aftercare provides support to people for up to three months after discharge from hospital following a suicide attempt. The service aims to increase social connectedness, improve access to clinical and community support services, and build the capacity of individuals to self-manage and improve mental wellbeing.

CCQ-PHN has partnered with Queensland Health, Hospital and Health Services, and community service providers to deliver the service in Central Queensland, Wide Bay and Sunshine Coast areas of the PHN Region.

Existing, Modified or New Activity \*

Modified

#### **Activity Priorities and Description**

#### Program Key Priority Area \*

Mental Health Priority Area 2: Child and youth mental health services

#### Other Program Key Priority Area Description

#### Aim of Activity \*

The enhancement of headspace services is intended to increase access to coordinated, multi-disciplinary care to cohorts of young people, as well as to improve workforce attraction and retention.

#### Description of Activity \*

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12-25 experiencing, or at risk, of mental illness.

This Headspace site has reached its funding target of \$1,250,000. This amount includes \$1,043,000 from the PMHC Quarantined headspace (Core) stream and \$207,000 from the NAB headspace Enhancement stream.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model. Funding will be utilised in an adaptable and tailored way to address specific local requirements.

This activity will enable headspace Bundaberg to maintain full staffing levels to ensure nil disruption to clinical services, with a focus on development of its workforce capacity. The funding will go toward recruitment of a GP and an Intervention Worker within

the Centre which will significantly increase the range services available.

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12-25 experiencing, or at risk, of mental illness.

This headspace site has reached its funding target of \$1,250,000. This amount includes \$1,043,000 from the PMHC Quarantined headspace (Core) stream and \$207,000 from the NAB headspace Enhancement stream.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model.

The Gladstone headspace service are using this funding to hire additional staff to meet increased demand and to supplement salaries for the existing multi-disciplinary workforce to ensure the Centre continues at a full complement of staff to meet the current young people in the communities need.

Mental Health Priority Area 2: Child and youth mental health services

#### Other Program Key Priority Area Description

#### Aim of Activity \*

The enhancement of headspace services is intended to increase access to coordinated, multi-disciplinary care to cohorts of young people, as well as to improve workforce attraction and retention.

#### Description of Activity \*

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12-25 experiencing, or at risk, of mental illness.

This headspace site has reached its funding target of \$1,250,000. This amount includes \$836,400 from the PMHC Quarantined headspace (Core) stream and \$413,600 from the NAB headspace Enhancement stream.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model. Funding will be utilised in an adaptable and tailored way to address specific local requirements.

This activity will ensure headspace Hervey Bay maintains full staffing levels to ensure nil disruption to clinical services, with a focus on development of its workforce capacity. The Centre also intends to create additional roles and initiatives over the coming

financial years in line with guidance. Centre will continue to grow their outreach to schools to ease the challenge of transport and conflicting education schedules.

### Other Program Key Priority Area Description

### Aim of Activity \*

The enhancement of headspace services is intended to increase access to coordinated, multi-disciplinary care to cohorts of young people, as well as to improve workforce attraction and retention.

#### Description of Activity \*

The headspace model provides holistic care in four core streams – mental health; related physical health; alcohol and other drug use; and social and vocational support. The PHN will continue to support the headspace model of care to young people aged 12-25 experiencing, or at risk, of mental illness.

This headspace site has reached its funding target of \$1,250,000, and received an additional non-recurrent enhancement, growing the 24/25 contract value to \$1,660,000. This amount includes \$992,604 from the PMHC Quarantined headspace (Core) stream, \$207,000 from the NAB headspace Enhancement stream, and an additional \$460,396 in demand management and enhancement funds. These demand management and enhancement funds were prescribed to headspace Maroochydore by the Commonwealth; allocation was not dictated by CCQ. headspace Maroochydore will return to its funding target of \$1,250,000 in the 25/26 financial year, which will put it on parity with other sites in the region.

Enhancing the network will support the retention of workforce, alleviating the strain on service capacity. The funding allocated for enhancement will maintain fidelity to the headspace Model Integrity Framework and headspace Centre Service Model. Funding

will be utilised in an adaptable and tailored way to address specific local requirements.

This activity will enable headspace Maroochydore to maintain full staffing levels to ensure nil disruption to clinical services, with a focus on development of its workforce capacity. The funding will also allow a GP Lead within the Centre to be onboarded which will complement the clinical capacity and enhance the range services available.
